An experience in opulence, a Pharaoh's life, is meticulously planned, executed and delivered to you in every inch of space on the Dahabeya. Right from the woods, to the textures, to the tones, to patterns and the very fabric - every aspect of the Dahabeya recreates an . entire yacht-like experience designed to transport you in time and space to the golden years of the Nile.

The Dahabeyas are inspirations in opulence and regal luxury, royal boats, designed for and by the pharaohs. From the days of yore to modern times, these vessels continue to be the preferred mode of luxury travel up and down the Nile. Dahabeyas today are sailboats tugged by a motor boat when the wind power is insufficient. A literal translation of the Dahabeya is a "golden piece". Each vessel today is equipped with a full suite crew and chef, to cater to every small need and wish of passengers. The boats we offer include six suites each, they are designed to be your home away from home, for a four to seven night excursion. Think serene, tranquil. Think fun. TRAVCO PROPERTIES

Established in 2014, Travco Properties introduced a highly desirable concept to the Egyptian market; by integrating the luxury of hospitality with prominent, well designed, mixed-use real estate developments. As a strong arm of Travco Group, Travco Properties was able to create this seamless integration, building on the group's 42 years of success in the tourism and hospitality industry.

Leveraging Travco Group's strategic land bank of 16 Million square meters, Travco Properties developed part of 6.5 Million square meters situated on the clear coast of Marsa Matrouh, accommodating its flagship project, Almaza Bay. With a lot more in Travco Group's land bank, Travco Properties aims to expand along with the suburbs and coastlines of Egypt, creating high end, mixed-use developments that perfectly assimilate hospitality and real estate.

Almaza Bay is Travco Properties' flagship development on Egypt's North Coast, located 38 km before Marsa Matrouh. Almaza Bay is a mixed-use development built on a land plot of 6.5 Million SQM.

The project currently features 5 world-class hotels, almost 2,000 residential units with 724 units delivered to date as well as corresponding F&B and retail outlets.

The carefully sited amenities coupled with contemporary design and resort sensibilities seek to create a destination that offers a timeless sense of place. All phases of Almaza Bay are being developed with a significant layer of infrastructure, ensuring overall sustainability, with two new hotels in the pipeline as well as an international marina.

Nestled on the bay of Ras Abu Soma, Travco Group's latest destination on the Red Sea is flourishing and ready to be the next flagship town on Egypt's East Coast.

The unique combination of world class service and years of experience in the hospitality industry, births a one of a kind International residential destination and tourist hot spot, that celebrates nature and all the wonders it has to offer.

The Ras Soma resort is primed to become one of the most desirable holiday destinations along the Egyptian Red Sea. WAG have worked closely with the Travco development team to conceive a unique development on the tranquil coastal setting of Ras Soma with inviting shallow turquoise waters
